- Alternatively, you can create a **Conversion-Based** campaign.

- In conversion campaigns, Facebook can **better identify** the users who are signing up to foster. Since conversion campaigns require code to be added to your website, it can use data to find others more likely to sign up.
  - While a large **benefit** of conversion campaigns is a **lower cost-per-acquisition**, the major **drawback** is it requires **more expertise to set-up**. It requires installing website code to your donation pages. Since there is no 'one size fits all' method to setting-up conversion tracking, we recommend the following resources:
    - [Introduction to Facebook Pixel](#)
    - [Create and Install Facebook Pixel](#)
- 4) Once the Facebook Pixel is installed, you are ready to learn more about [Website Conversions](#)
- 5) **Know Your Audience**
- Enter your town/city for your 'location':

A screenshot of the Facebook targeting interface. At the top, it says "Locations" with a help icon and a dropdown menu set to "People living in this location". Below this, it shows "United States" and "Tucson, Arizona + 25mi" with a location pin icon. There are buttons for "Include", "Type to add more locations", and "Browse". A world map is displayed with a blue pin on North America. Below the map is a "Drop Pin" button. Underneath the map, there are sections for "Add Locations in Bulk", "Age" (set to 18 - 65+), "Gender" (with "All", "Men", and "Women" buttons), and "Languages" (set to "English (All)").

- Fosters come in all shapes and sizes! In our experience, we found fosters of all ages and genders – there is no need to discriminate! However, you can ensure the right people see your ads by defining your interest:

Interests > Additional Interests

- Animal rescue group**
- Animal welfare**
- Pet adoption**

Add demographics, interests or behavior | **Suggestions** | **Browse**

- In reality, Facebook ad targeting takes 10 minutes to learn, but a lifetime to master. You can find several courses on this topic here: [Facebook Blueprint – Targeting Audiences Course](#)

6) **Craft Your Creative:**

You can evaluate these KPI's in **Business Manager**

  - Link Clicks
  - Cost per Link Click (CPC)
  - Cost per 1,000 impressions (CPM)
  - Post Engagement
  - Post Shares

## 8) Track what worked!

- Of course, it's important to continue to try out different approaches to ads, the most important thing is to **remember what worked.**
- It sounds so easy, but **measuring your success** is only effective if you implement what you learned in future ads you create.
